SUMMARY

Computer Science Engineering student with strong skills in Java, C++, Data Structures, and Full Stack Development. Passionate about AI, cloud technologies, and building real-world software solutions through internships and academic projects.

EDUCATION

The Oxford College of Engineering **2024 – 2027**
Bachelor of Engineering, Computer Science | CGPA: 8.4/10

Government Polytechnic Lingasugur **2021 – 2023**
Diploma in Computer Science | CGPA: 8.3/10

INTERNSHIP

Full Stack Development Intern – *V V Technologies, Tumakuru* **Jun 2023 – Jul 2023**

- Completed a one-month internship in Full Stack Development.
- Gained hands-on experience in project documentation and code development.

Artificial Intelligence with ChatGPT Intern – *InternForte* **Aug 2025 – Jan 2026**

- Completed a 10-week project-based internship in Artificial Intelligence with ChatGPT.
- Built AI-based solutions using prompt engineering and generative AI concepts.

Data Structure and Algorithm Intern – *InternForte* **Feb 2026 – Aug 2026**

- Completed a 10-week project-based internship in DSA using C++.
- Strong understanding of arrays, linked lists, stacks, queues, trees, graphs, hashing, and dynamic programming.

PROJECTS

Credit Card Fraud Detection using Hidden Markov Model

Technologies: Java, Data Mining, Hidden Markov Model (HMM)

- Developed a fraud detection system using the Hidden Markov Model to analyze transaction patterns and identify potentially fraudulent credit card transactions.

Smart Alarm System

Technologies: AWS SNS, Java, Cloud Computing

- Built a cloud-based smart alarm system that sends real-time alert notifications using Amazon Simple Notification Service (SNS) when an alarm event is triggered.

Hotel Assistant Chatbot

Technologies: Python, Flask, HTML, CSS, JavaScript

- Built an intelligent hotel assistant chatbot capable of answering customer queries, providing hotel information, and assisting with room booking-related requests in real time.

TECHNICAL SKILLS

- **Programming Languages:** Java, C, C++, Python
- **Web Technologies:** HTML, CSS, JavaScript
- **Database:** MySQL
- **Core Concepts:** Data Structures and Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks
- **Libraries & Frameworks:** OpenCV, Flask
- **Tools:** Git, GitHub, VS Code, Jupyter Notebook, Eclipse, XAMPP, AWS SNS

ACHIEVEMENTS

- Attended workshops on Machine Learning, Cloud Computing, IoT (Arduino)
